

Continental Auto Group features ASE Certified technicians and installers who through continual training and intense brand focus, know your vehicle's operation and electrical systems the best.

In addition to product knowledge, our installers achieve high levels of fit-and-finish. Often exceeding the manufacturer for quality and reliability.

Continental Auto Group believes you should never worry about your autostart system. We're so confident that we warranty our installs for 2 Years or 24K Miles and will replace or repair any defect in workmanship.

Call 563-CARS for Warranty Service

*Warranty coverage is for defective parts and workmanship related to install. Does not cover wear and tear, user error or damage caused by negligence or by vehicle accident. Manufacturer warranty covers product defects.

OUR MISSION

Dedicated to the comfort and safety of our customers, the products we offer have demonstrated quality and reliability for use in Alaska's demanding climate.

Many of our new vehicles are often equipped with comfort and convenience items geared to overcome the challenges of winter weather. The most sought after accessory is the remote start.

Even when a vehicle may already offer a factory installed remote start system, the added range and capability of a Compustar system is attractive.

With quality installation, compatibility with a wide range of vehicles and engine types, and upgradeable for mobile phone use, a Compustar remote start system will provide many miles of trouble-free use.

Call or stop in to get a quote for your vehicle.
